

# Career Pathway Inventory

Job Wages & Projections

**What to expect while in this program at Assabet Valley**

The **Assabet Valley Drafting program** is designed to prepare students for excellent entry-level positions in a variety of professional environments. Students will learn the Engineering Design Process by completing a variety of hands on projects. Other projects include model building in Architectural and civil drafting. Juniors will learn advanced CAD / Drafting in preparation for co-op. Seniors not on co-op will have independent projects. The program also prepares students to continue their training at the college level. The Drafting program has been nationally certified by the American Design Drafting Association (ADDA).

## Drafting and Design Technology
